

Good morning, team,

We have been monitoring the disturbance near the Yucatan Peninsula for several days. I have been in touch with the Assistant City Manager, James Clinch, and Fire Chief Frank Giddens, regarding the storm. To date, they have been monitoring the storm but with all of the city and county officials

Hurricane Idalia

As of this morning, it appears that the storm may become a hurricane and may impact ***somewhere along the western Florida coast***. What this means for us as a community and team is that we should continue to monitor the situation and begin preparations.

CALL OUT PROCEDURE

As a reminder, I have attached a copy of the step-by-step procedure *in the event that a call-out becomes necessary*. Please review it carefully. In addition, if you have not done so already, please review the materials in the Hurricane Corner.

Hurricane Ivan, Ian, Irma, Ike...Idalia...oh my

It looks like the "I's" have it. Let us hope that Idalia doesn't continue the history of significant storms to impact the U.S.

I will be sending out updates as I receive them, so please monitor your emails. Should you have questions, please email or call me. 615-481-9761.

X-Finiity Outage

As a side note, has anyone else lost internet service? We lost ours on Thursday morning and it may be Monday before we can get a repair person out to fix it. Just curious.

--

Best,
Mary Rau-Foster
