

Good morning, HRT members,

Did anyone else listen to Idalia's symphony last night, as played by the *wind* section of the orchestra? I love the sound of whistling winds. How about you?

Joe DeVirgilio made his usual post-storm assessment of the property to determine if it was necessary to call out the General Assessment team. We are in good shape. Joe took pictures of a large tree branch that fell across the sidewalk on Mestre Place, (the only noticeable damage). HRT member Amy Kirkpatrick reported it to us and Joe followed up. See below. Thank you, Amy and Joe.

We were very fortunate with this storm, but the season is not over. We still have until Nov. 30th, when the hurricane season officially ends. September will be a month that bears watching.

Also, I would like to make an appreciative shout-out to Paula Kolodny of the Reach-Out Team. Once again this year, we had a request from a member of our community for someone from the Reach-Out team to follow up with them after the storm. Once again, Paula did so and I am certain that our neighbor really appreciated it.

Thanks to all of you for your time and attention!!!

Best,
Mary Rau-Foster
